

TERMS AND CONDITIONS

FOR USING THE TEST ENVIRONMENT (PLAYGROUND)

("Terms and Conditions")

§ 1

General Provisions

1. These Terms and Conditions specify the rules for using the test environment (hereinafter: **"Playground"**), which provides tools and APIs for testing services related to the technical handling of the verification process for a specified set of user data. These services are provided using selected digital identity wallets (EUDIW or other interoperable wallets) and verification protocols, as well as testing the recording of data to a selected digital identity wallet (EUDIW or another interoperable wallet).
2. The operator of the Playground and the owner of the solution is Authologic Sp. z o.o. with its registered office in Warsaw, address: ul. Złota 59, 00-120 Warsaw, KRS number: 0000851095, registration court holding the registration documentation: District Court for the Capital City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register, NIP (Tax ID): 5223186837, REGON: 386578530, share capital PLN 23,750.00, (hereinafter: **"Provider"**).
3. A user of the Playground may only be an entity conducting business or professional activity (hereinafter: **"User"**). The Playground is not available to consumers.
4. Logging into the Playground by the User constitutes acceptance of these Terms and Conditions.
5. The User's expression of will to move to the production environment or clicking the appropriate offer selection button constitutes an invitation to enter into an agreement (pursuant to Art. 71 of the Polish Civil Code) and not an offer within the meaning of the Civil Code. An agreement is not concluded automatically upon the User clicking the button.
6. The Provider reserves the right to refuse registration of a Participant and acceptance of a User as a client of the Provider without stating a reason.

§ 2

Purpose and Technical Conditions of Playground

1. Playground is a demonstration, isolated developer environment. Its sole purpose is to allow the User to familiarize themselves with the functionality of the solution, conduct integration tests, and evaluate the technical suitability of the system prior to making a decision regarding commercial cooperation with the Provider.
2. All data used in the Playground must be test data. Entering real personal data, genuine identity documents, or any production data into the Playground is prohibited.
3. The Provider reserves the right to introduce changes to the Playground, limit the number of requests, and temporarily suspend the availability of the Playground without stating a reason and without informing the User.

§ 3

Access and Registration

1. In order to obtain access to the Playground, the User provides an email address used for professional purposes.

§ 4

Test Period and Fees

1. Use of the Playground for testing purposes is completely free of charge.
2. Access to the Playground is granted for an indefinite period.

§ 5

Intellectual Property and Confidentiality

1. All intellectual property rights to the software, API interfaces, documentation, and technological solutions made available in the Playground belong exclusively to the Provider.
2. Using the Playground does not transfer any copyrights. The User receives only a limited, non-exclusive, territorially restricted, and non-transferable license to use the Playground solely for testing purposes.
3. Information regarding system architecture, API operation methods, and encountered errors constitutes a trade secret of the Provider and may not be disclosed to third parties.

§ 6

Transition to the Production Environment

1. At any time during the use of the Playground (or directly after completing the tests), the User may submit an electronic application to conclude a cooperation agreement and gain access to the production environment.
2. The conclusion of an agreement for the provision of production services is conditional. The condition for concluding the agreement and launching the services is a positive verification outcome of the User by the Provider.
3. As part of the verification process referred to in section 2, the Provider applies its own internal onboarding procedure.
4. The User acknowledges that the Provider does not hold the status of an obligated institution within the meaning of the Act on Counteracting Money Laundering and Terrorism Financing, and the KYC procedure is applied voluntarily as an internal measure for security, risk management, and system stability protection. The legal grounds for data processing can be found in the Privacy Policy of Authologic Sp. z o.o., available at www.authologic.com.
5. To undergo the verification procedure, the User is obliged to:
 - a. provide full and accurate registration data of the entity they represent, as well as persons authorized to represent it upon concluding the cooperation agreement,
 - b. submit additional documents that may be requested by the Provider.

6. The Provider reserves the right to refuse to enter into a cooperation agreement and grant access to the production environment without stating a reason, in particular in the case of a negative KYC verification outcome, failure to provide requested documents, or identification of increased business risk.
7. Due to a refusal to conclude an agreement as referred to in section 6, the User shall have no claims whatsoever against the Provider, including claims for damages or compensation.
8. Upon obtaining a positive verification result, the parties will sign a cooperation agreement, resulting in the activation of production access.

§ 7

Liability and Security

1. The Provider makes the Playground available on an "as-is" basis.
2. The Provider does not guarantee error-free operation of the Playground nor shall it be liable for any damages (including loss of profits, business interruption) resulting from its use or inability to use it.
3. In the event it is detected that the User is using the Playground contrary to its intended purpose (e.g., conducting DDoS load tests, attempting to breach security measures, or entering real personal data), the Provider has the right to block access with immediate effect, and the User waives all claims in this respect.

§ 8

Final Provisions

1. The Provider reserves the right to amend these Terms and Conditions. Users will be informed of any changes via email with 7 days' advance notice.
2. In matters not regulated by these Terms and Conditions, the provisions of Polish law shall apply, in particular the Civil Code.
3. Any disputes shall be resolved by the court having local jurisdiction over the registered office of the Provider.
